[All Sections](#)

Class,

Module 9 material is now posted. You can find the material by going to Modules > Module 9. Note that module 9 is not having any assignments (no homework, no discussion question).

Based on the course schedule the due dates/times for the final exam, the final project, and the peer evaluation are as follows:

Final Exam: <u>Between November 21st (4:00 PM) and November 23rd (4:00pm)</u>
Final Project: <u>Before November 22nd (11:59pm)</u>
Peer Evaluation: <u>Before November 22nd (11:59pm)</u>

The final exam will cover the following: Modules 6, 7, 8, and 9.

The final exam will be available on Canvas for two days, however, the exam duration is 2 hours. Similar to the midterm exam, you have to use lockdown browser and a webcam in order to be able to access the exam. To make sure that everything is Ok before taking the exam, please attempt the [Online Exam Trial - Requires Respondus LockDown Browser + Webcam](#).

The peer evaluation assignment is now posted. You can find it by going to [Assignments](#) > [Peer Evaluation](#). Please note that the peer evaluation worth 2% of your total grade. It is due November 22nd at 11:59 PM.

I would like to invite everyone to fill a short Discord survey (it will take less than two minutes to fill). Since this is the first semester to use the Discord platform, I'll appreciate your response to this survey. You will get 5 bonus points for filling this survey. Here is the link:

- [Discord Survey](#)

Finally, the Class Climate Survey which is sent directly from the department to your email is very important to me. I'll appreciate if you can take your time to fill this survey (thanks to those

who already submitted it). Here are the details of the survey:

- o Surveys Open: 11/05/2020 03:57:00 pm
- o Online Survey Reminder: every 2 days
- o Response Rate Notification to the instructor if the response rate is below 50%
- o Finish Survey: 11/20/2020 10:00:00 pm
- o Access it by email or by going to [My Surveys](#) on Canvas
- o The course instructor will see the survey responses of the students after the grades are posted.

Enjoy your weekend,

Dr. Mohamed Selim
