Lightening Talk #1 (L1)

Submit Assignment

Due Feb 9 by 11:59pm   **Points** 10   **Submitting** a file upload   **File Types** ppt and pptx
Available Jan 28 at 12am - Feb 23 at 11:59pm 27 days

Lightening Talk #1: Requirements & Engineering Standards

We will be having several "Lightning Talks" throughout the semester in which each team will prepare a 5-minute power point presentation with annotated voice commentary and slide transitions. The intention is to give you a bit of technical presentation experience and to force you to think about important aspects of your project.

Lightening Talks are *group* assignments. For a 5-minute presentation, you may want to limit your talk to 4-6 slides. Each member of the group should participate to narrate the presentation. Please say your name before starting your voice commentary.

The first Lighting Talk is due on 2/9 Sunday. Only one submission is needed from each team. The focus is on "requirements" and "engineering standards." Prepare your talk for a technical audience in your area. Explain all the relevant requirements - functional, environmental, economic. Also discuss what engineering standards relevant to your project focus (circuit standards, digital design standards, software development standards) apply.

Lightening Talk #1

Criteria	Ratings			Pts
Content	**5.0 pts** **Outstanding** Explains all relevant requirements and discussed relevant engineering standards.	**3.0 pts** **Good** Discusses some but not all relevant requirements and engineering standards.	**0.0 pts** **No Marks** No discussion on requirements or engineering standards.	5.0 pts
Participation	**5.0 pts** **Outstanding** All team members participate in the talk	**3.0 pts** **Good** Some but not all team members participate in the talk.	**1.0 pts** **Poor** A single team member narrates the entire presentation.	5.0 pts
			Total Points: 10.0
