Final Project Review Materials

Final project review by a faculty panel is an important assessment component of the 491 class. It counts for 25% of the course grade. The original plan was that each team will give a live 20-minute presentation during the prep week (between 4/27 Monday and 5/1 Friday) to a faculty panel, who will evaluate your project based on the design document and the project presentation.

However, given the current situation, we have decided to offer two options instead, which are described below. The intent is to accommodate and encourage all students to participate in this important presentation, while being as flexible as we can.

==Option #1: Pre-recorded Final Project Presentation==

- Similar to the Lightening Talks, each team is required to prepare and submit a *20-minute power point presentation with annotated voice commentary and slide transitions*. All members of the team shall participate to narrate the presentation; please say your name before starting your voice commentary.

- All teams also are welcome to submit a *video clip of project demo* if available.

- For Option #1, the voice-commented power point presentation slides (and demo video if available) are due on 4/26 Sunday. Only one submission is needed from each team.

- Between 4/27 Mon and 4/29 Wed, each team's Final Project Presentation Slides and Design Document v3 will be evaluated (offline) by a panel of faculty members (between 3 and 5 panelists) with a mixed expertise in Cpr E, E E, and S E. There will be NO live meeting or presentation during this 3-day period.

- In case there is something in your presentation slides or voice commentary that may need further clarification, we will notify you via Email by 4/29 Wed. Then, we will work with your team to set up a live Zoom or WebEx meeting on 4/30 Thu or 5/1 Fri, so that you will have a chance to explain in more detail.

==Option #2: Live Final Project Review==

- If your team prefers to give a live 20-minute presentation plus 10-minute Q&A to a faculty panel, please let us know via *Email by 4/17 Friday 5 PM CST*, so that we can plan ahead.. We will then work with you to schedule a 30-minute meeting between 4/27 Mon and 4/29 Wed for your final project review.

- For Option #2, your team only needs to submit a plain version of the power point presentation slides without voice commentary, which is due on 4/26 Sunday. Only one submission is needed from each team.
